To Judge Stephen Clark

On May 6 2021 Ali Wilson case # 4:20-CR-000196-SRC did a change of plea hearing in that hearing you went over substantial issues like if there was a services of which I couldn't afford the government would provide the services for me I'd like to know despite of me making a guilty plea would it be possible to obtain a independent forensic analyses of the GPS/money counter which i believe contain evidence that could possible change the outcome of my case
